Timberhouse Corner

A Personal Experience

I live in a new house on Timberhouse Aero Estates right by a 3000 ft. grass runway. My neighbor has three small planes. My dad takes lessons and sometimes I get to go. Smooth or rough it is always exciting to go up.

When I am up in a plane and I look down everything is miniature. I can see our house and lots of woods. The land looks similar to a map or to a patchwork quilt. I love being in a plane and watching things below. *By Rebekah Lumkes*

Animal Corner

The Animals of Timberhouse

There are three canines at Timberhouse Aero Estates, their names are Timber, Annie and Texie. Timber is half wolf, half Alaskan Malamute and loves people. Annie is a black Labrador and she and Timber go around everywhere digging in mole holes. Texie is a Mini Pin and the smallest of the three. She loves to run and play with the

kids. There also are some kittens at Timber house and their names are Tiger and Bunny, who are brother and sister. They love to hunt and are almost catching the birds at the bird feeder. Tiger is a tabby cat and Bunny looks like just like a leopard. *Rebekah Lumkes*

Wildlife Corner

Hunting Season

Lot's of guns are shooting because it's hunting season. John Lumkes has shot a young buck on his land in Timber house. The Lumkes' have also seen lots of does on their land. Kim and John Lumkes are trying to get another deer soon, so they will have three deer. *Matthew Lumkes*

Pilot Corner

New Pilot!!!

Ron has passed his exam and flight test. Congratulate Ron on becoming a new pilot! Now that there is a new pilot everyone should cheer for him. David Gevers is the flight instructor out here and trained Ron.

RC Corner

Lots of Snow

Since there has been snow and ice there has not been much RC flying. Maybe there will be more next month. We miss you guys! *Lumkes Children*
