Timberhouse Corner

The Cemetery

The Lumkes' have been out to see the cemetery by the farm. It was very cool. There was a whole family who was buried there named the Summers. After we got home Dad looked on the internet for information on them. We found out that Michael Summers lived in Ohio with his wife, Mary Summers and their ten children and moved to Indiana. *Lumkes Children*

Doggy Friends

Annie, the black lab at Timberhouse will bark when she wants to visit Timber. Even if we just let her out she will bark so we let her out, then we look out our window and we see her visiting. *Lumkes Children*
