### **Animal Corner**

*Gollum Alive*

When the Lumkes' were in their basement a spring peeper (a kind of frog) climbed on their door. Then Matthew sighted it. Rebekah went outside and captured it. Then they named it Gollum. He is now living happily in the Lumkes' garage. Here are some facts about spring peepers:

- Live in trees whole life
- Eat small insects
- Grow to be about 1in. *Rebekah Lumkes*

### **Wildlife Corner**

*Eagles, Eagles Everywhere!*

One day when Kim Lumkes was driving the kids to their gym and swim the saw two bald eagles sitting above a river. Then John Lumkes saw three flying on his way to Purdue and two more later. *Lumkes Children*

### **Pilot Corner**

*New Engine*

At the Lumkes house there is an airplane engine waiting to be put in. *Matthew Lumkes*

### **RC Corner**

*One Windy Day*

Something happened one windy day to a RC guy. We will not tell who it was, but here is what happened: Rebekah, Matthew and Rachel were watching a RC guy fly and when he turned his big model airplane around to fly into the wind. Then wind flipped it over really hard and the wings fell off. *Lumkes Children*
