Timberhouse Corner

Landscaping

The Lumkes' are busy with landscaping. They just planted new trees: 6 fruit trees, 2 red maple trees, and 48 pine trees. The pine trees are really little and cute. In the front there are Dwarf Alberta Spruce trees and lilies. In the back there are hummingbird and butterfly bushes. *Rachel Lumkes*

Animal Corner

Tiger the Mischievous

The Lumkes' cat Tiger is a very mischievous cat. Under our deck some sparrows built a nest. When the baby birds hatched Tiger could hear them. One day we looked at the deck and saw Tiger hanging off the deck! He had put his back feet on either side of the railing and was completely hanging off the deck trying to reach the bird nest. The parent's of the nest weren't very happy at all, even though Tiger couldn't reach them. *Rebekah Lumkes*

Wildlife Corner

Pesky Raccoons

Those pesky raccoons are little rascals, but lots of stuff keeps them away from plants. The Lumkes' bought a spray from a store, and it seems to working. Moth balls sometimes help. *Matthew Lumkes*

Pilot Corner

Planes, Planes and Planes

Timberhouse is having lots of visitors this spring. One day an ultralight flew in. Another time the Zenith Zodiac planes came. As you can see we have had a lot of visitors. *Lumkes Children*

RC Corner

RC Contest

Last month in the end of May Timberhouse had a RC Contest. Our favorite part was when they did a streamer fight. Each plane had a 30 foot long streamer. About 6 planes flew at the same time with a streamer. The other planes would try to cut off the other streamers. Who ever had the longest streamer at the end would win. There was a lot of other stuff too, but you're going to have to ask the RC guys about it.
