Fishing for Frogs

One day Matthew Lumkes was fishing down at Back ditch creek. All of a sudden he saw something grabbing his bait. Quickly he flipped the fishing pole on the ground. On the end of the line was a frog! Matthew put the leopard frog in a clear, plastic bin filled with water with minnows and a log to climb on. Later that day when Matthew went to check the frog, it was gone. *Rebekah Lumkes*

Wildlife Corner

What in the World is a Slow Loris?

Matthew and Rebekah Lumkes have just finished a Zoo Camp at Columbian Park Zoo. There they got their picture taken with Mosey, a Slow Loris. A Slow Loris is an animal that lives in the rainforest and is very, very slow, except when catching bugs. *Matthew Lumkes*

Pilot Corner

Almost Ready

The plane that the Lumkes' are building is almost ready to move into the garage. They think it will be about 3 months. *Lumkes Children*

RC Corner

New Way to Travel

Ron just got a new car and a Yellow Motorcycle. The motorcycle is really fast and can get up to speeds of 47mph. Now that is fast!
