### **Timberhouse Corner**

#### *Aviation Day*

In the beginning of the month the Lumkes' had an Aviation Field Trip at their house. The RC guys explained about airplanes and then everyone went to the Lumkes' house and had snacks and Matthew showed people how to make paper airplanes. It was a lot of fun!

### **Animal Corner**

#### *Annie's Toy and Our Pet*

One day when the Lumkes' were on a nature walk Rebekah Lumkes saw Annie (the dog) playing with something. When they checked they found out that it was a 3 and a half inch praying mantis. They brought it home and put in a cage with a stick to climb on. They named it Manti and he has already eaten a moth. *Rebekah Lumkes*

### **Wildlife Corner**

#### *The Great Migration*

Monarch butterflies will start migrating soon. They will go south for the winter and come back in the spring. When they hatch out of their **egg** they are a **larva**, then they make a **cocoon** and finally they become an **adult**. *Matthew Lumkes*

### **Pilot Corner**

#### *Training*

On nice days Dave takes the planes out and flies. We watch them land and take off.

*Lumkes Children*

### **RC Corner**

#### *New Biplane*

The Lumkes' have gotten a new \$30 biplane with a controller. All the kid's are learning how to fly it and it is a lot of fun.
